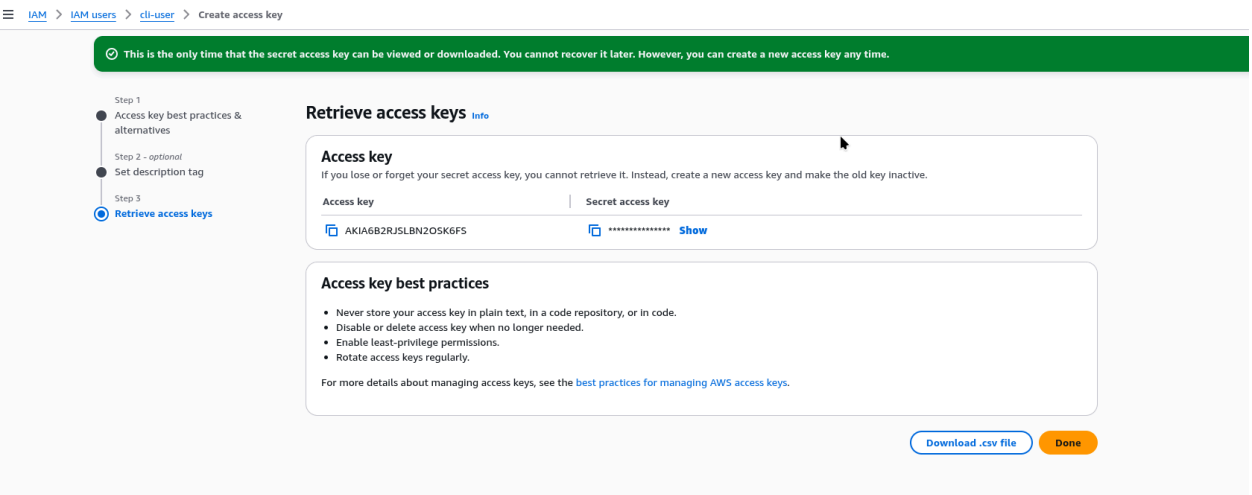
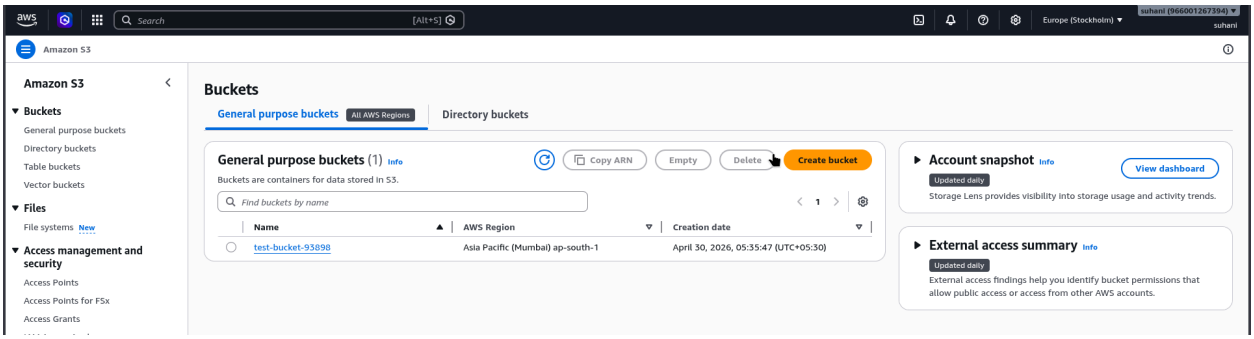
Task 11

Install AWS CLI and create AWS s3 bucket using cli



```
root@c07a0db3e5e9:/# aws configure
AWS Access Key ID [None]:
AWS Secret Access Key [None]:
Default region name [None]:
Default output format [None]:
root@c07a0db3e5e9:/#
```


```
suhani@debian:~$ aws s3api create-bucket \
  --bucket test-bucket-93898 \
  --region ap-south-1 \
  --create-bucket-configuration LocationConstraint=ap-south-1
{
    "Location": "http://test-bucket-93898.s3.amazonaws.com/"
}
suhani@debian:~$
```
